Subject: VAST Trail

I have already submitted a letter voicing my very strong concerns on the proposed route of the VAST trail, using the former Lamoille Valley Rail Trail.

I must first state that I have no ill feeling about snowmobiling, a fine sport that brings in many dollars to the State. I also realize that my concerns pale in comparison.

My home is the closest to the trail of any other in the route. I am very concerned about the invasion of my privacy, the noise and the pollution that the machines will bring into my home. I am a widow, live alone and fully realize that the majority of the users of the trail are probably law abiding riders. There will be, however, a portion of riders that will not obey the rules and I fear that my home and my health will be jeopardized.

I would ask that my concerns be considered and perhaps addressed therefore.

Please accept my sincere thanks for your attention to this matter.
